INFN PUBLISHES TWO CALLS FOR THE ICSC NATIONAL CENTER AND THE SAMOTHRACE ECOSYSTEM

INFN publishes two calls for a total value of almost 3,5 million euros aimed at both private and public entities to contribute to the development and growth of ICSC - the National Research Center in HPC, Big Data and Quantum Computing, and of the Samothrace ecosystem – Sicilian Micronanotech Research and Innovation Center, both founded and financed within the National Recovery and Resilience Plan.
